

JustCloud. :

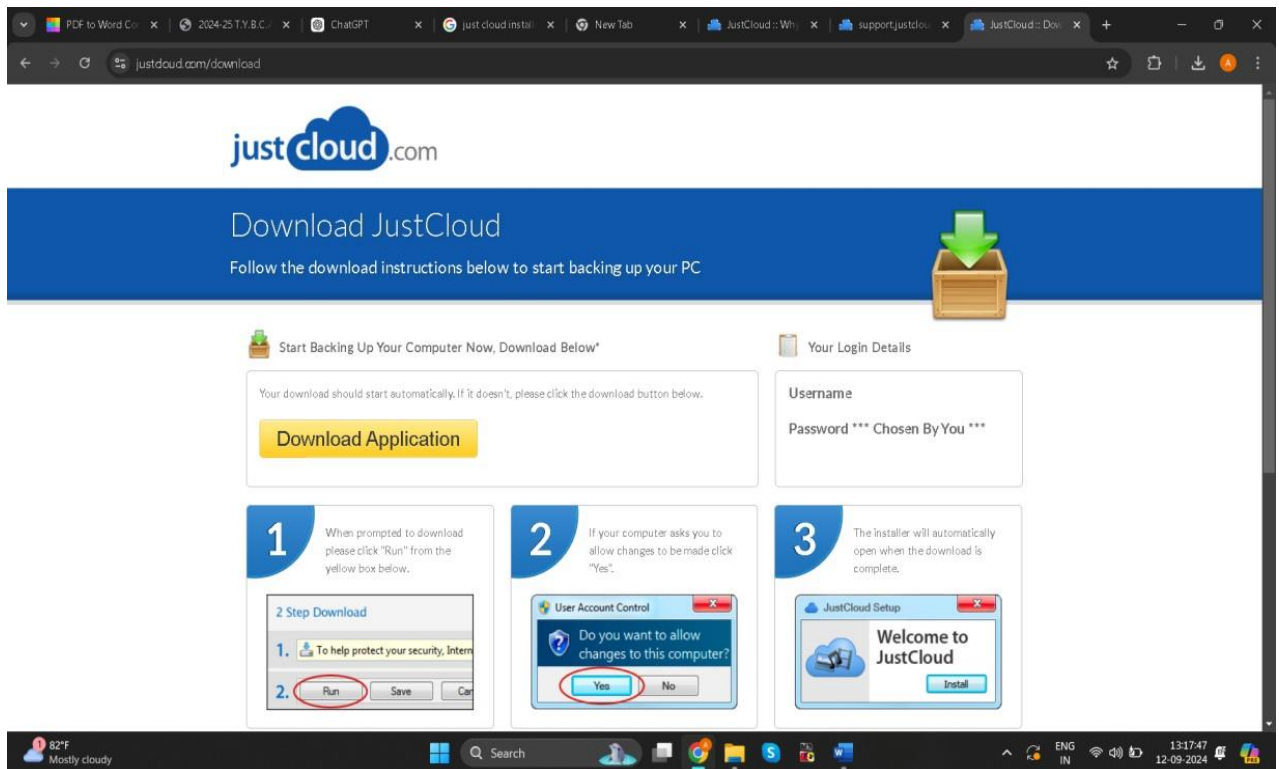

Step 1: Open your browser (e.g., Chrome, Firefox, or Edge).

Step 2: In the address bar at the top, type <https://www.justcloud.com/download> and hit Enter.

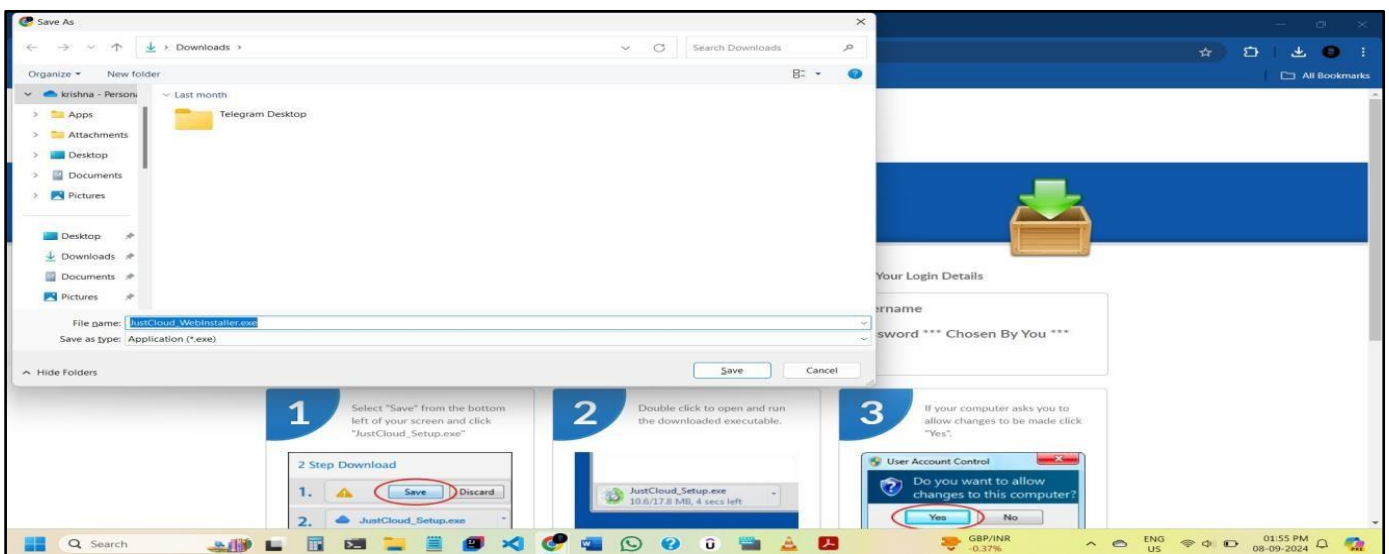

Step 3 : click on the Download Application download will automatically start

1. Install JustCloud:

Step 1: Once the file is downloaded, go to your Downloads folder. Look for the JustCloud installer file (JustCloud_WebInstaller .exe for Windows or .dmg for macOS).

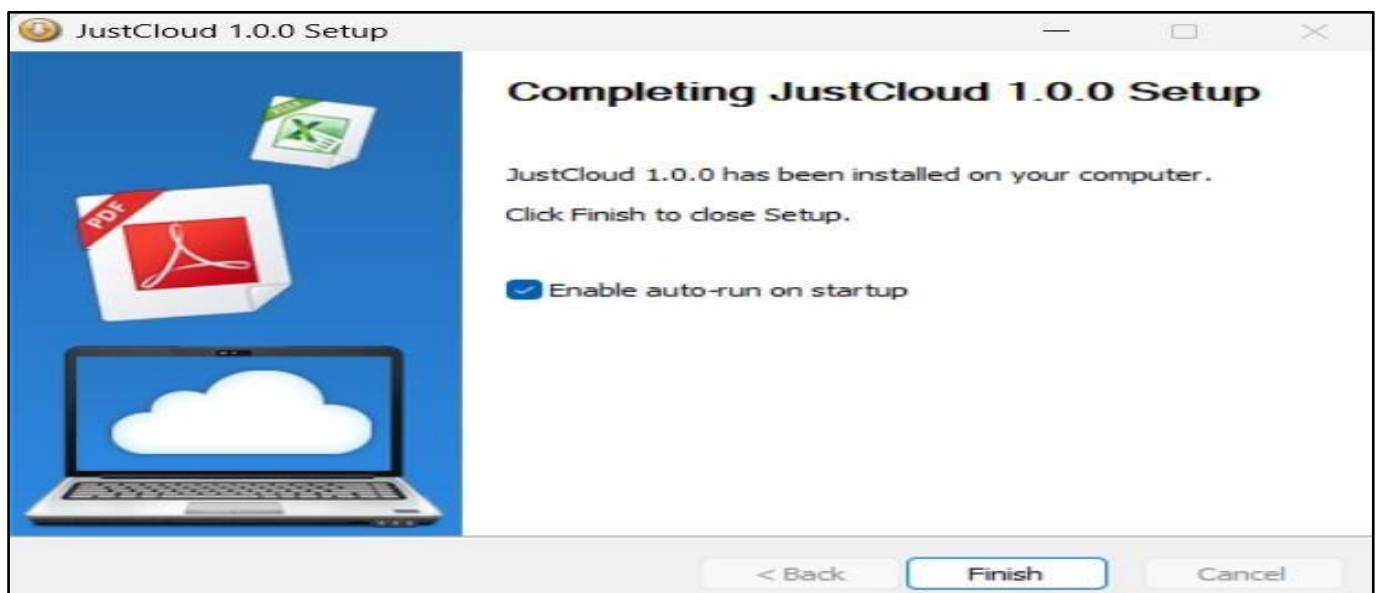

Step 2: Double-click the installer file with the left mouse button to start the installation process

Step 3: If prompted by a security warning, click "Yes"

Step 4: click on Install button

Step 4 : Once completed, click "Finish" to launch JustCloud.

Create or Log into Your JustCloud Account :

Step 1 : After installation, JustCloud will automatically open.

The image shows the 'JustCloud Setup Wizard' login screen. At the top, there is a blue cloud icon followed by the title 'JustCloud Setup Wizard'. Below the title, a subtitle reads 'Please enter your login details that you used to register'. The main form area contains two input fields: 'Username / Email' and 'Password'. To the right of the 'Password' field is a link that says 'Forgot your Password?'. At the bottom left, there is a link that says 'Don't have an account? Click here to create one today'. At the bottom right, there is a yellow button labeled 'Next'. At the very bottom, there are three links: 'Privacy Notice', 'Terms and Conditions', and 'Do Not Sell My Personal Information'.

Step 2: On the login screen

- If you already have an account, enter your username and password and click "Log In" with the left mouse button.
- If you don't have an account, click "Sign Up" at the bottom left of the screen

This image is a duplicate of the one above, showing the 'JustCloud Setup Wizard' login screen. It features the same layout: a blue cloud icon, the title 'JustCloud Setup Wizard', the subtitle 'Please enter your login details that you used to register', input fields for 'Username / Email' and 'Password', a 'Forgot your Password?' link, a 'Don't have an account? Click here to create one today' link, a yellow 'Next' button, and footer links for 'Privacy Notice', 'Terms and Conditions', and 'Do Not Sell My Personal Information'.

Justcloud doesn't want to accept any new customers

(If account is created in JustCloud)

2. Set Up Backup:

- 1) Once logged in, you'll see the JustCloud dashboard.
- 2) On the dashboard, find the Settings icon (gear symbol) in the top right.
- 3) Click "Backup Settings" on the left side.
- 4) Choose the file types (photos, music, documents) you want to back up by checking the boxes.
- 5) Select the folders you want by clicking "Browse" on the right side. 6) Click "Apply".

3. Start the Backup:

- 1) Click the "Start Backup" button in the center of the screen.
- 2) JustCloud will begin backing up your files.
- 3) Watch the progress bar at the bottom.

4. Restore Files:

- 1) If you want to restore files, click the "Restore" tab at the top left.
- 2) Pick the files or folders you want to restore, then click "Restore Now" on the bottom right.
